- Judge of the Year Award, September 2008

TESTIMONIALS & CLIENT MATTERS

Mediated a \$1.26 million settlement involving a liability claim in which a minor failed to see the plaintiff on his motorcycle and made a left turn directly into his path. The crash caused significant orthopedic injuries to the plaintiff. The Defense admitted liability and agreed that the plaintiff was seriously injured. The dispute was with regard to the future economic impact of plaintiff's injuries. The plaintiffs' counsel used medical evidence regarding the injuries, along with future limitations to provide analysis of future wage loss analysis.

'Over the years, I have attended many mediations and have encountered a number of facilitators at work. I enjoyed watching you encourage the parties to reason through the issues. Not only was it clear that you were in your element, it was also evident you have managed to hold fast to your compassion - no small feat after years in a profession that can sometimes usher in cynicism.' - Kim Baker, Adjuster
